Skills & Projects

Throughout my time as a computer science enthusiast, I have worked on quite a few projects. Many of them are uploaded on [my GitHub](#) account! Most of my work has been in object-oriented and functional contexts, and I've worked in many languages: Python, C# and .NET 7-9, Elixir & Erlang, HTML & CSS, JavaScript, and SQL (MySQL). I'm also currently working on [a simple murder mystery application](#) in C# and WPF (*soonTM*).
